

# Say No To Plastic

## **AWARENESS DRIVE “SAY NO TO PLASTIC”**

On 18th September 2025, Punjab Public Senior Secondary School, Brahaman Majra, organized an inspiring awareness drive on the theme “Say No to Plastic”. The programme aimed at spreading awareness among students about the harmful effects of plastic and encouraging eco-friendly alternatives.

The event began with an informative speech by the principal, who highlighted the dangers of plastic pollution on human health, animals, and the environment. Students presented skits, speeches, and poems emphasizing the urgent need to reduce, reuse, and recycle. Various posters and charts prepared by students were displayed, carrying strong messages against the excessive use of plastic.

Teachers also guided the students to adopt alternatives such as cloth bags, steel bottles, and biodegradable materials in daily life. The event concluded with a pledge by all students and staff to minimize the use of plastic and to motivate others in society to do the same.

The awareness drive successfully conveyed the message that together we can build a cleaner, greener, and plastic-free future.
